

# MECHANICAL CARBON

furnace components

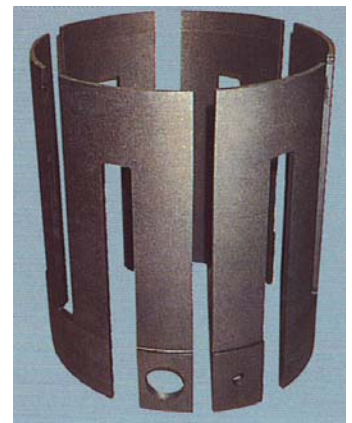

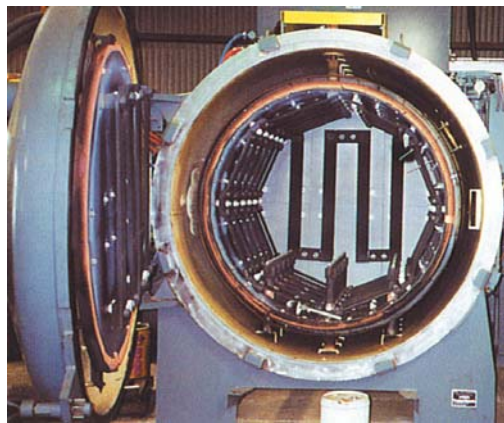

Morgan Industrial Carbon manufactures many different graphite shapes for use in various types of furnaces, these being vacuum or resistance heating.

Round and flat graphite heating elements, complete with matching bridging links and graphite screws or nuts can be supplied to your individual needs.

Other components supplied made out of graphite for furnace use are crucibles, work boxes and separating plates.

Morgan Industrial Carbon also supply graphite felt and graphite sheet with fibre backing to increase thermal efficiency of your furnace.

Call Morgan Industrial Carbon for all requirements.....
